

Training Opportunities

Central to our work is developing **effective grassroots leaders**, especially those who are impacted by the issues we address.

As an affiliate of a national social justice network, ACTS members are eligible to attend low-cost national leadership trainings, national summits, and other leadership opportunities.

ACTS provides local Social Justice Leadership Trainings, and workshops on analyzing issues, running effective meetings, fundraising, and more.

For more information, visit our website or call our office.

ALLIANCE OF COMMUNITIES TRANSFORMING SYRACUSE

**Let's Transform
Syracuse Together!**

What is ACTS?

Our Vision

ACTS is a powerful, civically engaged community of people of faith & conscience working to collectively transform our society and bring about a beloved community of justice, equity and solidarity.

Our Mission

The Alliance of Communities Transforming Syracuse (ACTS) is a grassroots, inter-faith network advocating for social justice. We are voices striving for a more just and fair community that improves the quality of life for all in Onondaga County. Our mission is to come together as people of faith and conscience in working to effect the systemic change necessary to rectify the social, economic, educational, and political inequities that exist in our community.

Our Values

We believe in the inclusion of all people in decision making about matters that impact them.

We believe in the power of organizing for grassroots leadership and participatory democracy in all facets of our social justice work.

We believe in using our collective power to influence decision-making and force public business to be done in public.

We believe in honest dialogue as the means to resolving the conflict of values that arises when diverse people address issues of common concern.

We believe in intentionally opposing racism, classism, sexism, sectarianism, and all other forms of bigotry in confronting inequality.

We believe in the power of advocacy to bring about structural change necessary for dismantling systems of poverty and oppression.

We believe in applying social justice principles to create equitable access to rights and opportunities.

We believe we are called to act boldly and courageously to achieve our goals.
